PLANS FOR LABOR DAY PARADE DISCUSSED LAST NIGHT

Everyone From Over This Section of the State and From Southern Ohio Will Be Invited to Maysville For Labor Day.

Efforts are being expended to make the Labor Day celebration in Maysville by far the greatest affair of its kind ever held in this city.

Plans as they are maturing were revealed by Secretary Dodds, at the Chamber of Commerce meeting last night. Representatives of all labor unions together with County Agent Boyd discussed plans for the monster parade which will leave the Court House at 4:30 in the afternoon. An effort is being made to interest the farmers to participate in the way they best see fit, and surrounding villages will be urged to send delegations in any kind of a patriotic display they may devise. He announced that the demonstration has as its foundation the idea of fanning to flame again the patriotic spirit of the city and knitting together of the people of the community in a fuller realization of their part in helping to win the war. Present plans point to a celebration which will outlive all the Fourth of July demonstrations ever attempted.

Besides the big band concerts in the afternoon and evening there will be an athletic meet, gun shoot, patriotic parade, community chorus concert and dancing all evening.

The celebration promises to be a lively one from early until late, with the "win-the-war" spirit prevailing.

To begin with, we have arranged to have a big brass band here early in the morning to play some good music. Then out to Beechwood Park where country people may open their baskets and eat. City folks must also bring well-filled baskets if they expect a look in on this occasion. This is to be a community picnic and a basket lunch affair.

PIANO TUNING

Mr. E. C. Shearer, Piano Tuning Expert, of Cincinnati, will be here all this week on a special trip. Large orders with Miss Lida Berry or Central Hotel. (Member National Association of Piano Tuning.) 27-2t

HEALTH BOARD CASES ARE PASSED IN COURT

Owners of Property Complained of By the Health Board Promises to Make Changes and Board Asks That Cases Be Passed.

On last Saturday the city Board of Health asked for warrants in two cases in which they stated that they had issued legal notices for certain sanitary improvements which had been ignored.

The cases were called for trial in Police Court yesterday afternoon and on motion of Mr. Frank H. Clarke, president of the City Board of Health, they were passed over. It was stated by Mr. Clarke that the property owners had expressed a willingness to comply with the orders of the Board of Health and that the board did not wish to make anyone pay a fine who showed a disposition to obey the board's orders.

The Board of Health had issued several official notices ordering certain unsanitary conditions changed and all of those notices were obeyed but the two for which warrants were taken Saturday. The Board of Health feels well over the outcome of the cases.

LARGE CROWD AT FLEMINGSBURG

Local people attending the court day sales at Flemingsburg yesterday report that there was a very large crowd on hand but that trading was not so brisk. Every month a large number of Mason county and Maysville people attend the Fleming county sales.

MAGISTRATE'S COURT

Yesterday was Squire Fred Dressel's regular monthly court day and he was kept busy all during the day and disposed of quite a number of very important cases.

The fall term of my Commercial School will open Monday, September 9, 1918, in the First-Standard Bank Building. Phone 359-R.

All are invited to hear the patriotic songs and patriotic address by Judge C. D. Newell Thursday 1:30 o'clock p. m. at the Third Street M. E. Church.

ALLIES' GAIN AT ALL POINTS ON GREAT FRONT

Whole Line Threatened With Collapse—All Counter-Attacks Are Repulsed—Hard Blow on Northern Battle Line.

With the British Army in France, August 26—The German retirement is continuing along many parts of the battle front tonight. The British are overwhelming the enemy's rear guards with heavy fighting.

Reports indicate that at least one counter attack has been broken up by the British artillery concentrating its fire on massed enemy troops.

While the Germans were busily engaged in defending themselves against the attacks of the British and French armies from the Ancre river to the region of Soissons, Field Marshal Haig early Monday morning struck another surprise blow over a new front north of the old battle zone. The new offensive was launched from the east of Arras on the Scarpe river and southward to the Cojeul. All along the front the British pressed forward, at some places to a depth of more than two miles and captured a half dozen or more villages, among them Monchey-Le-Preux, Guemappe and Wancourt.

Across the Cojeul the new British attacks on the battle front brought them to the villages of Morv and St. Leger, and farther south the small town of Favreil, one and a half miles northeast of Bapaume, from which the British pressed on eastward about a mile. Farther south the British are reported unofficially to have reached the west outskirts of Thillois in the nipper movement they are carrying out against Bapaume. With Haig's men now standing well within gun range of the town it seems likely the Germans will be forced to evacuate in short order.

Additional gains also have been made by the British east of Albert and on both sides of the Somme river. In fact, notwithstanding the efforts of the Germans, through the use of large reinforcements to hold them in check, the British and French all along the line from Albert to Soissons have materially bettered their positions and carried further forward their plan of making the Picardy battle ground untenable for the enemy.

SCHOOL OPENS ON NEXT TUESDAY

Everything will be in readiness for the opening of the city schools on next Tuesday morning. The janitors will begin this week to put all of the school buildings in perfect condition for the opening and the teachers are getting ready for the beginning of the year's work. School officials expect as large an enrollment this year as the schools had last.

AID SOCIETY

Ladies' Aid Society of the Third Street M. E. Church will meet with Mrs. Fannie Stallcup in Forest avenue, Wednesday evening at 7:30 o'clock. On account of some very important matters connected with the improvement of the parsonage before the arrival of the new pastor, a full attendance of the society is desired.

SHOWS FOR FAIR PASS THROUGH

Yesterday several shows and concessions for the Germantown fair passed through the city en route to the Germantown fair grounds from Ewing where they held forth last week. The fair will have several little added features but nothing will detract from the splendid show rings this old reliable fair always has.

MEMBERSHIP IS CANVASSED

Teams from the Third Street M. E. Church on last Sunday canvassed the membership of the church receiving pledges for next year. The membership of this church desires to get some idea of their income for the next year as they plan to bring a very strong preacher to the local church this year if at all possible.

CAMPMEETING WAS SUCCESS IN EVERY WAY

The Maysville men who were backing the annual meeting of the Mower Camp in Lewis county this year report that the meeting was a success in every respect. There were larger crowds than usual and the management made a financial success of the meeting.

FEDERAL COURT AT COVINGTON

Judge A. M. J. Cochran left yesterday morning for Covington where he will re-open the present term of the Federal Court for the Eastern district of Kentucky. Several very important cases are scheduled for trial in Covington this week.

Miss May Hoeler of Forest avenue is visiting at Cincinnati and Mason, O.

ANOTHER SQUAD OF MEN LEAVE TOMORROW

Seven Mason County Men Will Leave Tomorrow For Camp Zachary Taylor to Begin Training For the Army.

Mason county will give another squad of men to the army tomorrow when seven men will be selected from nine ordered to report to the local board for entrainment for Camp Zachary Taylor to enter training for the army of the United States.

This will be the last squad to leave this county during the present month but already Major Henry Rhodes, chief of the Selective Service in Kentucky, has announced two calls of men from this county for the first of next month.

During the present month Mason county has furnished quite a number of men both white and colored but indications now are that during the month of September the county will be called upon to furnish even more men.

The local board is now making all preparations for the new registration of men between the ages of 18 and 45 years. It is expected that everything will be in readiness so that as soon as the bill is passed by the Senate and signed by the President, the date for registration can be named and the work of listing the men go forward without the least hitch.

LABOR TRAIN PASSENGER SHOT BY DETECTIVE

In the presence of hundreds of people on the crowded C. & O. depot platform in Huntington Charles Jackson, 33 years of age, of Joplin, Mo., was shot and probably fatally wounded by J. J. Bastain, C. & O. detective last night.

Jackson was taken to the C. & O. hospital where, following an operation he had not rallied at a late hour last night.

Bastain is being held at police headquarters on a charge of shooting with intent to kill.

Jackson was a passenger on a government labor train of eleven coaches and containing almost 500 men who had been engaged in Texas, Oklahoma and Missouri for work in the government plants at Nitro and Lee Hall, Va. The detective charges the laborer went into his pocket as if for a gun when he fired in self defense.

HEARTY WELCOME TO PROF. J. W. BRADNER

Prof. J. W. Bradner, Superintendent of the Ashland City Schools, is here this week as an instructor at the County Teachers' Institute. Prof. Bradner was for several years head of the Maysville city schools and the city has never had a more popular teacher. He is meeting many of his old friends who are extending to him a hearty welcome to Maysville.

DIES IN HOSPITAL

Chief of Police Harry A. Ort yesterday received a telegram from Lexington announcing the death at St. Joseph's Hospital there of the father of Josie Parker, of this city, and asking the Chief to inform the Maysville woman. After a search of the city the woman was located at 1013 East Third street and informed of her father's death by the police.

CITY AUDIT CONTINUES

The auditing of the city's books continues and it is expected that that part of the audit which has to do with the alleged shortage in the accounts of former City Clerk George Wood Owens will be completed this week for the examining trial of the former city official has been set for next Saturday, August 31.

SENATE AGREES ON PASSAGE OF MAN-POWER BILL

All Hands Agree That Vote Shall Be Taken Before Four O'clock This Afternoon—Little Opposition Developed.

Washington, August 26—By unanimous consent the senate agreed tonight to vote not later than four o'clock on the administration man-power bill extending the draft ages to 18 and 45 years. Debate will be limited after 1 o'clock.

Discussion of the military committee's work or fight amendment was in progress when the senate adjourned. Other important questions in controversy left over for settlement tomorrow included several proposals for exempting or restricting the services of youths under 21.

Free education of boys under 21 who enlist or are drafted is provided for in an amendment by Senator Reed, of Missouri, adopted during today's debate. Under its terms youths would be permitted to enter educational institutions at government expense for a period equaling their military service, not to exceed two years.

In discussing the Thomas "work or fight" amendment, which was added to the house draft of the bill by the senate military committee, Senators Jones, of Washington, and Cummins, of Iowa, both declared they believe the present law covers all the exigencies which the amendment is intended to touch, the latter adding he believed some restrictions such as through heavy taxation should be imposed on employers placing unfair conditions on their employees.

While admitting that the existing law if construed properly would have the desired effect of meeting the present situation and make all persons within draft age engage in occupations essential to the prosecution of the war, Senator Thomas, of Colorado, declared that, in view of interpretations made by Secretary Baker, the evil growing out of exemptions for industrial reasons would be increased instead of diminished, unless some additional legislation is enacted.

MRS. BELLE DICKSON DEAD

Mrs. Belle Dickson died yesterday morning at her home in Bridgeport following a long illness. She is survived by her husband and four children. Funeral will be held this afternoon and burial will be made at the Olivet cemetery.

DON'T WEAR OUT YOUR EYES Wear Glasses

We have every modern device for testing of the eyes. If your eyes are giving you the slightest trouble it will pay you to come to us at once. Glasses at Reasonable Prices.

M. F. Williams Drug Company
THIRD STREET DRUG STORE

CASE DISMISSED

William Wels was tried before Police Judge John L. Whitaker yesterday afternoon on a charge of speeding. He proved an alibi and was dismissed by the court.

Officer Martin Drennen reported for duty on the Police force yesterday afternoon having spent the past ten days on his vacation with relatives in the county.

In the Mason County Court yesterday T. J. Beckett was appointed constable in the Sixth Magisterial district and he qualified as such with M. D. Phillips as surety on bond.

Mr. Thomas McCullough, of Cincinnati, is spending the day here with relatives.

GIVEN THIRTY MINUTES TO GET OUT OF TOWN

John Holland, of the county, was arrested yesterday by Officer P. Ryan on a charge of disorderly conduct. It was charged Holland was misbehaving on the streets and had been loafing about town drunk for several days. He was taken before Chief of Police Harry A. Ort who gave him thirty minutes to get out of the city and served notice on him that he must stay out.

PLEADS GUILTY TO SPEEDING

George Diener, through a representative, entered a plea of guilty to a charge of exceeding the speed limit yesterday afternoon in Police Court and was fined \$13.90 which was promptly paid.

What About

Converting your 3½ and 4 per cent. Government Bonds into 4 1-4 per cent. Bonds. You can do so if you so desire, and if you wish to do so we will be glad to attend to the matter for you.

Without Charge or Cost of Any Kind

All you have to do is just leave your Bonds and instructions with us.

Conversion may be made any time before November 9, 1918; but we would advise that you act at once, if it is your intention to make the conversion as the Government now has lots to do and you will help things along by giving it all the time possible.

First-Standard Bank & Trust Co.

NOTICE

Parties who purchased First Liberty 4% (converted) and Second Liberty 4% Bonds from us and wishing to convert into 4½% Bonds will please deposit same with us.

The State National Bank.

Eye Glasses for Your Car

When you equip with the Dillon Multi-Vision Lens you virtually put eye glasses on your car.

And as you drive over the dark, hazardous roads you experience a feeling of daylight confidence and of safety.

Light from the Dillon lens is full and clear, giving double the usual area of illumination, yet glareless and legal. Every pair guaranteed.

MERCHANTS WITH CLEAR VISION

The stores are arteries of the nation's industrial life. They afford healthful "circulation" for the products of the shops and factories. Active business in our retail stores means active production at the nation's factories—earnings for the people, out of which they are able to support the Government in its war tasks.

The enterprising merchant here at home is helping to fight the battles of the free nations abroad.

He is carrying an essential part of the military burden—and upon him rests a share of the responsibility for the final issues of the great war. He is fighting in his way—and his part of the fight is not less important than that of the man at the front.

Wars are not won in a military sense unless they are first won in an economic way. A nation which is weak at home is important in battle. Our forces abroad are dependent upon the quality and measure of support accorded to them by the people here at home.

Whatever weakens the nation industrially weakens it in a military way. In the great task of keeping the nation strong the merchant is a soldier on duty on trial.

He must not strive for larger profits—but he must strive to render greater service. The large profits may come, inevitably. But the larger service must be given, irrespective of profits. It is the imperative duty.

Keep business going full speed—and the Government can keep the great war machine at the highest efficiency.

When the great struggle has been won—as it will be in due time—the merchant who has carried his portion of the task without flinching will be entitled to his due share of the glory of victory.

MONEY AND PRICES

Financial policies have had a tendency to increase the volume of money, and therefore to cheapen it. The financiers fix the price of potatoes and corn. It is not the farmers who do this. They may get some of the usufruct, but they do not themselves advance the price. The more money, the higher the price. As this increases, up goes the cost of living. This is the reason why so many things which we think should fall in price persist in their high rate. So it makes no difference how the rains come and go, how the hot days scorch or the cold days chill, the most of living does not descend, because there is plenty of money to keep the prices up. So we must not count upon any important reduction of prices until our financial policies provide for a diminished volume of currency. We were much astonished that the price of peas, berries, tomatoes, etc., should keep up, but when we looked at the quantity of money afloat, we knew then that every pea, berry, bean, tomato must have its share of it, and that its share is maintained until it gets it.

COURTESY IN PUBLIC DUTY

A New York dispatch says that lack of courtesy on the part of railroad employes and some subordinate officials in their relations with the public was sharply rebuked in a memorandum issued by the regional director to railroad officers and employes in the Eastern territory. The director says the disposition of employes to slight the reasonable needs of the public was due doubtless to the feeling that competition had been eliminated and there was no occasion for solicitude as to the public attitude. This is certainly a poor reason for ignoring courtesy. That should control the conduct of all people who exercise any authority in public affairs. The meanest discourtesy there is that of a ticket agent, conductor, motorman, or anybody occupying a public job. Courtesy is a virtue of itself, like honesty, and no one can show a lack of courtesy and be a true and faithful employe.

MAINTAIN VALUE OF OUR DOLLAR

One incidentally important thing for this country to do is to keep its money in good international condition, to keep the value of its dollar such that it will be worth in neutral countries what it ought to be and what it was before the war.

The surest way for any nation to do that is to produce more than it consumes. As Albert W. Atwood, financial expert, points out, this is especially true when war is eating up millions of dollars of wealth each year.

There are obviously two ways of going at that. Speed up production—and we're doing that just as fast as we can—and cut down consumption.

Mary Would Have Gone a-Begging for Bid From Uncle Sam

THE movies are going to be very much in evidence in the campaign for the Fourth Liberty Loan. Every star of note in the United States has made a picture for the drive and every movie house in the nation will show a different one of these pictures every night of the drive.

That is the plan of the treasury department and a thorough system of distribution which has been worked out with the help of the exchange men and the exhibitors assures that the plan will be accomplished. Of course the so-called big four of the screen will be in evidence—Pickford, Fairbanks, Chaplin and Hart.

"If they hadn't asked me to make one of these pictures," said Mary Pickford, "I would have been around begging for a chance."

MARY PICKFORD.

In all of the pictures, scenarios for which were written by the best talent in the country, an attempt has been made to give the audiences an interesting short story as well as a message about the bonds. They are short but pithy.

SOLDIERS' MEAL TICKET IS YOUR LIBERTY BOND

To feed one United States soldier for one year it takes:

Beef, 475 pounds,
or
Bacon, 275 pounds.
Wheat flour, 413 pounds.
Potatoes, 458 pounds.
Beans, 55 pounds.
Prunes, 27 pounds.
Coffee, 26 pounds.
Sugar, 73 pounds.
Syrup, 7 pounds.
Condensed milk, 11½ pounds.
Butter, 11½ pounds.
Lard, 11½ pounds.
Vinegar, 3½ pounds.
Salt, 13½ pounds.
Which is one of the reasons for Liberty Bonds.

Slackers

Ten little slackers standing in a line;
One joined the Army, then there were nine.
Nine little slackers discussing what they ate;
One gave up wheat and sweets, then there were eight.
Eight little slackers looking up at heaven;
One saw an airship there, then there were seven.
Seven little slackers, talking politics;
One joined the Navy, then there were six.
Six little slackers gave thanks they were alive;
One picked up a German's "clock," then there were five.
Five little slackers, slacking more and more,
One heard a soldier talk, then there were four.
Four little slackers trying life to see;
One saw a Belgian babe, then there were three.
Three little slackers bound to stick it through;
One went to building ships, then there were two.
Two little slackers wishing war were done;
One joined the gay Marines, then there was one.
One little slacker looking hard for fun;
He bought a Liberty Bond, then there was none.

Somehow a man's neighbors never realize what a good man he was until they hear the minister tell about it at the funeral.

LOCAL MAN ON BIG REPUBLICAN COMMITTEE

W. D. Cochran on Sub-Committee to Select Republican Campaign Committee For This Place.

Will Kaitenbacher in the Louisville Times says:

While routine work incident to the campaign has actually begun at both the Democratic and Republican State headquarters in Louisville, neither party has completed its State campaign organization. The Republican State Central Committee has delegated the formation composed of J. H. Gilliam, W. D. Cochran and John P. Haswell, the latter party nominee for Congress in the Fourth district. It is understood that the Republican campaign chairman will be named by the subcommittee early in the coming week, and the selection will be made by Dr. Ben L. Bruner, the senatorial candidate, it being agreed that the head of the ticket should be accorded the right to name the man to direct the party fight this fall. It is said that the congressional and Appellate Court nominees have declared their willingness to abide by any choice for the campaign chairmanship made by Dr. Bruner.

It had been planned to have a meeting of the Democratic State Committees about the first of September, to effect the campaign organization, but nothing will be done in this direction pending the serious turn in the condition of Senator Ollie M. James, who has been confined by illness for several months in a Baltimore hospital. In the opinion of the party leaders Senator James should have a very potent voice in the selection of the campaign chairman and the personnel of the committee that will direct the party fight, and the whole matter will be held in abeyance for the present or until his wishes are known.

HOW TOWN PEOPLE AID FARMERS

How the little town of Deni, situated in the Caskill Mountains in New York State, is aiding farmers in the surrounding community in securing much-needed labor is told by a representative of the United States Department of Agriculture, who has recently returned from an inspection trip in that district. The local commercial club of Delhi has organized some of the business men of the town who are willing to do farm work after 3 o'clock. The farmer who needs help telephones to the club, and at 3 o'clock the volunteer workers climb into automobiles and report to his farm for a half day's work. About 35 business men are being placed every day on the farms around Delhi. The local minister has set the example. He spends one day helping each of the farmers in his congregation.

It's a wise head that knows its own mind.

LEARN THESE SONGS

Every body in Mason, Bracken and Robertson counties and all visitors to the Germantown Fair are herewith requested to learn these songs, cut them out of this paper, bring them to the Fair on Friday, and all join in singing them. Let us have one big, union "community sing." All singers from every community are requested to come as near to the ring as possible during the Administration Parade.

W. D. COCHRAN,
Food Administrator For Mason County.

Every Body Sing—Tune "Over There"

Food will win the war, win the war, win the war,
Send the word afar, word afar, word afar,
See us saving everywhere, for the fighters Over There.

Save it right away, don't delay, save today,
Soldiers must have wheat, must have wheat, must have wheat,
Hear them call to you and me—"Send us food across the sea."

CHORUS:

Over There, Over There,
Send the wheat, send the wheat Over There;

For the boys we're working, no one is shirking,
To do his bit most everywhere,
All we care, is to share,
All our food with the boys "Over There"

We'll be saving, we'll all be saving,
And we won't stop saving till its over "Over There."

America.

My country, 'tis of thee,
Sweet land of liberty
Of thee I sing;
Land where my fathers died;
Land of the Pilgrim's pride!
From ev'ry mountain side
Let freedom ring!
My native country, thee,
Land of the noble, free,
I love thy rocks and rill,
Thy woods and templed hills
My heart with rapture thrills
Like that above.

Let music swell the breeze,
And ring from all the trees
Sweet freedom's song;
Let mortal tongues awake,
Let all that breathe partake,
Let rocks their silence break,
The sound prolong.

God "save" our splendid men,
Send them safe home again,
God "save" our men,
Make them victorious,
Patient and chivalrous,
They are so dear to us,
God "save" our men.

Many a man who knows that there is room at the top sits down and waits for the elevator.

What will Hoover say when it comes to filling a long felt want?

CROPS RUINING FOR THE LACK OF MUCH WATER

Farmers in Mason County Report That Rains Must Come During This Week or the Corn Crop Will Be Cut in Half—Tobacco Also Suffers.

Unless we have rains and plenty of them in Mason county this week the crops will be so severely damaged by the drought that there will not be more than half a crop of either corn or tobacco, the farmers in the city Saturday reported.

During the past week the ground has been entirely too dry for the farmers to accomplish anything on their farms and the time has been spent by doing up little odd jobs about the place and in looking for the appearance of a rain cloud on the horizon.

In some parts of the county the situation is much worse than it is in the immediate neighborhood of Maysville. In the Minerva neighborhood especially is the situation said to be very serious and around Mayslick and Helena rains are badly needed while near Orangeburg the situation is so serious that farmers report rains now would not save the crops.

The rain early this morning was certainly fine on crops but much more is needed.

In most parts of the county, however, rain during this week would clear up the situation considerably and would probably save the tobacco crop to 90 per cent. of the crop set while the corn crop would be saved quite a bit.

The farmers in Mason county during this week were considerably interested in the wheat and sheep campaign started at the War Conference here by County Agent Boyd and representatives of the State Department of Agriculture. The farmers are so very much interested that the government can rest assured that the farmers of Mason county will grow much more wheat next season than they did this and that there will be many more head of sheep raised here than have been raised here in the history of the county.

Weather conditions have been unfavorable for the operation of the real estate men during the past week and no land deals of any consequence have been noted.

It is understood that the striking of gas on the Sartin farm on Cabin Creek last week caused considerable interest among the farmers of the Eastern section of Mason county and land there could hardly be purchased right now at any price.

No activities in stock have been reported although quite a number of hogs have been shipped to market from Maysville this week.

FREIGHT DEPOTS CLOSE EARLY TO CONSERVE FUEL

All freight depots on the Louisville & Nashville railway system will be closed at 4 o'clock daily except Saturdays, when they will close at 1 o'clock. The purpose of the order is to save fuel. The order of W. L. Mapother, manager of the company, notified the State Railroad Commission of the order. The announcement was made by Richard Tobin, secretary of the Commission.

Orders to the above effect have been received at Paris by General Agent W. V. Shaw. The public is urged to ask to govern themselves accordingly, and to have freight shipments in the depot before the hours mentioned.

ANTLER MOTHS INVADE FIELDS OF ENGLAND

Buxton, England.—The northern part of Derbyshire as well as certain parts of Yorkshire are being invaded by an army of "another moth caterpillars."

Battalions of these pests are on the march and are described as "like a moving carpet," taking rocks and walls in their march or crawl just as the Romans did, without attempting to go round.

Trenches are being dug around fields with growing crops and various other methods are being adopted under the direction of the authorities to try to exterminate the horde.

The quickest way to reach prosperity is to look in the dictionary.

THE MOVIE INDUSTRY IS HELD ESSENTIAL

War Industries Board Holds That Moving Picture Industry Is Essential to Winning the War.

Washington.—The motion picture industry in all its branches has been recognized as an essential industry by the War Industries Board. Chairman Baruch has announced that this action had been taken in line with Provost Marshal General Crowder's ruling under the work or fight regulation that the industry afforded useful occupation.

Recognition of its value in affording an educational medium for the great masses of the people, as well as a wholesome and cheap means of recreation, governed the board in placing the industry upon the preferred list for priority. The extensive use of motion pictures by all war recreation agencies also was considered.

The erection of new picture theaters, however, will not be permitted during the period of the war. Saving of many materials used in the manufacture of films, several of which are essential in the production of explosives, will be effected by a ruling of the board that only one negative may be taken of each picture instead of several, has been customary. The industry also has been called upon to institute other economies in material, chiefly tin and iron.

SUGAR EXPORTS SMALL TO NEUTRAL NATIONS

Only 797 tons of refined sugar were shipped from America to neutral nations during the first five months of this year. This amounted to only 8.2 per cent. of the total exports to all countries. Mexico received more than half the amount we exported to neutrals.

SAVE SUGAR.
 Sugar means Ships—
 Ships mean Soldiers—
 Soldiers mean Victory.

SECONDHAND CLOTHING BRINGS HIGH PRICES IN BELGIUM

It is becoming more and more difficult to obtain clothing in Belgium, according to the Belgian Bulletin, received by the Department of Labor, which says that persons who have been thrown out of work may secure on easy terms, once a year from the charity clothing club, a dress or an overcoat.

A Belgian, interested in Holland, obtained permission to wear civilian dress. His wife, who had remained at Verviers, joined him, and he wrote recently:

"My wife has come with my personal effects. However, before she left, a number of persons came to her and offered her for my Sunday suit and overcoat 500 francs (\$100); for a pair of velvet trousers, which cost 7 francs (\$1.40) before the war, 40 francs (\$8); for my shoes, 250 francs (\$50); etc.

Why not try a Ledger Want Ad?

CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadersville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before. I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape."

I cannot say too much for Black-Draught for it is the finest laxative one can use.

Thedford's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects. It has won the praise of thousands of people who have used it.

ORDERS FOR FERTILIZER SHOULD BE PLACED NOW

Food Administration Urges More Food and Farmers Are Urged to Buy Fertilizer.

The Food Administration through the State Council of National Defense is endeavoring to increase the wheat acreage of Kentucky during the coming year. The likelihood of increasing the wheat acreage more than 5 to 7 per cent. is uncertain and an increase of total production, therefore, depends quite materially upon increased production per acre.

In this connection farmers will require immense quantities of fertilizer of the phosphate variety suitable for increasing the yield of wheat. The fertilizer situation at the present time is such that farmers should not delay in placing their orders with manufacturers of manufacturers agents for the earliest shipment of fall fertilizer.

Available supplies of fertilizer carried over from last year are very small and for that reason manufacturers will be dependent almost entirely upon this year's production for the filling of fall orders. Those who give in their orders early will have the best chance to secure well cured fertilizers and avoid the unsatisfactory handling qualities of newly manufactured goods. Orders for fertilizer should be made up in carload lots wherever possible, the minimum size cars being 22.44 and 66 tons.

Owing to the high price of material for making cotton and burlap bags the Department of Agriculture suggests that fertilizer be shipped in 200 lb. bags in order to conserve material. Not only are burlap bags scarce but the jute from which they are made is imported from India and the shortage of ships has materially interfered with the supply. A great shortage of burlap would severely handicap the movement of fertilizer to the farm since the need of food containers would receive first consideration.

Knowing these facts every patriotic farmer will gladly co-operate by using larger bags.

Some fertilizers not containing acids such as basic phosphate can be handled in bulk, and this usually results in saving two to four dollars per ton. This method can be followed where farmers have cars shipped to a club or group and can arrange to call for the fertilizer with their own containers.

NEW AMERICAN COMMERCIAL ATTACHE FOR BRAZIL

Mr. J. E. Philippi, of New York City, has been appointed American Commercial Attache at Rio de Janeiro and is preparing to leave in the near future for the Brazilian post, according to an announcement made by the Bureau of Foreign and Domestic Commerce, Department of Commerce.

Mr. Philippi will be assigned to the American embassy at Rio de Janeiro. The position of commercial attache in Brazil is considered of special importance at this time when the relations between the two countries are becoming more cordial every day as a result of the common interest in the outcome of the war.

Mr. Philippi has been engaged in business in Latin America for seventeen years and speaks Portuguese and Spanish fluently. For the last three years he has been the South American representative of a prominent New York concern, during which time he has devoted particular attention to Brazil.

ITALY'S AID VALUABLE

When the war began the Krupp gun works were the largest of their kind in the world—employing 96,000 people. It had taken Germany 100 years to build the Krupp works.

Italy, at the end of her third year in the war, had built up a number of enormous ordnance factories—one employing 80,000 people. Italy in 100 years to do.

Italy is our ally. When you mention our allies, be sure to say "Italy."

RED CROSS FAIR

Remember the Lewis county fair September 4 to 7 for Benefit of Red Cross. On September 6 there will be a Service Flag of 550 stars dedicated to our soldier boys now fighting for Democracy and freedom. Hon. Ed P. Morrow to be the speaker of the day. Let all come and help the Red Cross.

LAUNCHING MEN A NEW

(By Charles M. Schwab)

If there is one thing today that American industry is searching for harder than anything else, it is brains. For thirty-three years my life has been spent among workmen in what has become the biggest branch of American industry, the steel business. But it doesn't make any difference what field of industry you consider, the test of success is the same.

In the present crisis, leaders of various businesses are engaged in work that is necessary to the winning of the war, and yet wherever in the country's service they happen to be placed, the basis of efficiency remains unchanged. It is brains—specialized brains.

My present experience in the building of ships proves this daily. The man who can drive more rivets than his fellow succeeds not because he is physically stronger, but because he knows how to utilize his brains, and how to direct his energy.

There used to be a good deal of non-sensical talk in this country about men who miss fire because they lack genius. Genius is principally hard work: using normal brains to think beyond the manifest daily duty. It supplies one of the readiest allies for the man who doesn't want to work a little harder than he is compelled to.

America is facing today a situation that demands the most thoughtful consideration of every man and woman. The drain on the man-power of the country is tremendous. Day by day, week by week, thousands of our men are leaving their industrial pursuits to take up arms against the common foe. The army and the navy are straining every effort to equip and to train these men for battle; the great industrial plants are humming day and night; the shipyards from coast to coast are quickening; by every human process, the building of ships to send our fighters and the necessary supplies to our Allies overseas.

Certainly it is not difficult to foresee how the exodus of several million able-bodied intelligent young men is going to affect American industry. The newspapers carry the message daily in their "help wanted" columns. The supply is way behind the demand; but we must have fighters and war-workers, and the demand will continue greater as the war goes on.

This is why the subject of reconstruction of our disabled soldiers and sailors will touch every branch of American industry. The man who has offered his body in the defense of his country must not be allowed to return to us merely as a hero worthy of our sympathy. His physical handicap, whatever it may be, will not, except in rare instances, render him useless as an industrial factor; on the contrary, it will afford a greater opportunity than ever before to utilize his brains upon which he was not so dependent when he went away.

Reconstruction is a very live issue in America. Not an academic problem, but a practical one. For some time it has been gaining in importance as a part of the very fabric of industry, and because our big leaders are blessed with imagination, many of them have already foreseen the necessity of salvaging their man-power, of holding trained and loyal employees and not discarding them on account of a disability for which they are not responsible. I know of many instances where the process of re-training his returned able men to their jobs, and has not only saved the man for himself and his family, but increased the effectiveness of the plant in which he worked.

It is not possible to gauge accurately the number of fighting men who will return to us handicapped in body, but there will be many. Most of them will not have to learn new trades—not more than ten per cent., I am told. But practically all of them can be put back into the industrial life of the country and must be. We need these men—need them badly. Their physical courage proves their worth; and ought to dispel once and for all the notion that they crave pity.

I have been asked to suggest what seem to be the best fields of industry for our handicapped soldiers and sailors. It would be easier to say which field they cannot enter for I do not believe that any field is closed to them.

The usefulness of these men as fighters does not cease when they are unable to return to the trenches. The men who are building our ships constitute a great army—they are industrial soldiers, every one of them. Most of those who come back from overseas can be made fit for industrial work of some character, whether it be mechanical or clerical. Each can take the place of an able-bodied man and release to the military forces another fighter, or can fill an important gap in the industrial scheme.

Never before has opportunity for advancement in industry been so great as it is today. The gates are opened wide for trained men; and the Government program of rehabilitation is a guarantee of what we may expect. Our disabled soldiers will be taught to use their brains, and brains are needed to carry to us their plans of those who furnish capital.

In many years of experience as an employer of large groups of men, I have rarely known a man who really used his brains to his full capacity and failed to advance. I believe that the emphasis of this fact will have much to do with the recovery and success of our disabled soldiers and sailors. If the men can be imbued with the spirit that impelled the most striking successes in American industry there should be little difficulty in solving the problem of reconstruction.

It is the duty of the business men of America to take these men at their intrinsic value; to employ them not from a sense of duty but because a trained man who has been taught to think is a valuable asset.

MORE FRUIT AND LESS SUGAR
 How? Less
 * Canned Fruit Jam
 * Dried Fruit Jelly
 * Fruit Butter Preserves
 * Fresh Butter Sweet Pickles

GERMAN LABOR SITUATION PERILOUS
 Germany will have a serious labor problem in the days to follow the war, according to information which has reached the United States Department of Labor.

Latest reports indicate that the number of unions has declined from 771 to 450 since 1913, and that the membership of the Berlin Central Labor Union has fallen from 302,000 to 130,000 in the same time.

Hamburg's 130,000 trade-union members in 1913 have been reduced to 47,000 now, and Dresden's membership of 96,000 has been cut in half.

The great wastage of German man power in the war not only means a future danger but has led to widespread troubles in Belgium which, according to Lieut. Henry De Man, of the Belgian Army, who spoke before the Boston Central Labor Union, caused the greatest labor strike in the world. More than 1,000,000 organized laborers of Belgium, he said, refused to do any work for the Germans.

The sting of a wasp is only one-thirtieth-second of an inch long. The rest of the mile and a half is imagination.

HIDDEN DANGERS

Nature Gives Timely Warnings That No Maysville Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney area. They will warn you when the kidneys are weak. Weak kidneys excrete a clear, amber fluid. Weak kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, suggest weak kidneys and warn you of the danger of dropsy, gravel and Bright's disease. In that case Doan's Kidney Pills have been endorsed by thousands. Here is a statement of a nearby resident:

Jas. M. Newton, Gum, St., Aberdeen, Ohio, says: "I have used Doan's Kidney Pills off and on for several years and have been greatly benefited. Whenever my back has been weak or when my kidneys have been too frequent in action, I have used a box or so of Doan's Kidney Pills, which I get at Wood & Son's Drug Store. They have always relieved me in a short time."

The above is not an isolated case. Mr. Newton is only one of many in this vicinity who have gratefully endorsed Doan's. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Newton had. 60c all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

THE ELITE

ADMINISTRATOR'S SALE
 As Administrator of the estate of the late David Douglas, I will offer for sale at public auction on the premises one and one-half miles South of Sardis on the Blue Licks turnpike on
 AUGUST 30, 1918.
 At 10 O'clock A. M.
 The farm of 120½ acres upon which is located a good two story eight room residence, two good stock barns and other improvements.
 This farm is well watered, well fenced and in a high state of cultivation.
 At the same time and place a large amount of personal property including horses, stock and household and kitchen furniture will also be sold to the highest and best bidder.
 GEORGE DOUGLAS,
 Admr. of David Douglas, Deceased.

54 CASES ON DOCKET FOR SEPTEMBER TERM

Only Six Hold Over Cases Are to Go Before the Grand Jury on Next Monday — Light Term of Court Is Predicted.

Circuit Clerk James B. Key has finished up his docket for the September term of the Mason Circuit Court which will be opened on next Monday morning. The docket has 54 cases on it. Thirty of these cases are ordinary and 24 equity. There are only six minutes of lower courts on file in the Circuit Clerk's office for reference to the Grand Jury.

The fact that there are but six cases going before the Grand Jury from the lower courts does not mean that the Grand Jury will not be busy for it is understood they will have several important matters to come before them that will occupy quite a bit of their attention.

This term of court will be a rather light one according to the present appearances although some very important cases are to be tried.

Chief among the criminal cases to be tried is the Lewis county case sent here on a change of venue from the Lewis Circuit Court which resulted last term in a hung jury and the Lewis murder case. No long drawn out civil suits are scheduled for trial this term.

HOME-COMING SERVICE

Announcement was again made of the Home-Coming Service to be held in the Christian Church on next Sunday morning. Messages from those out of the city who were at one time members of this church or its Bible School are being received. Though it has seemed inconvenient and almost impossible for some of the members to be in attendance upon the morning church services of this church, the officers of this church request all the members of both the church and the Bible School to allow nothing to keep them from this Home-Coming Service. Those not able to come otherwise can be brought to the service in automobiles for which special arrangements are being made.

The regular order of the service of the morning will be followed, though new features and a message in keeping with the spirit of the Home-Coming day will help to make the service special.

Miss Rose Murphy, efficient deputy at the County Clerk's office, is again on the job after a two weeks' vacation.

TEACHERS' INSTITUTE OPENED YESTERDAY WITH MUCH INTEREST

Instructors Give Teachers Much Food For Thought in First Day's Session Yesterday.

(By W. T. Berry)

Ninety-thirty called to order by Superintendent Turnipseed.

Mrs. Winder appointed Secretary. Song—America, led by Mr. Dodds. Prayer by Brother A. F. Stahl. Twenty-five present (all told.) Song—Onward Christian Soldiers.

The following creed was presented by Mr. Dodds with some practical and helpful comments:

"I believe in the United States of America as a Government of the people, whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states, a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes. I therefore believe it is my duty to my country to love it, to support its Constitution, to obey its laws, to respect its flag and to defend it against all enemies."

Announcement by Mr. Dodds that a community chorus would be organized in the near future and urged that all persons present lend their assistance to this end.

Superintendent Turnipseed in his opening address which was very helpful, especially emphasized the old, tried, but true saying, "As is the teacher so is the school."

Prof. Bradner not being present at this time Prof. W. J. Caplinger after a few general remarks proceeded to the discussion of his first subject on program, "The Reading Circle." He emphasized the fact that the Reading Circle is for the teachers own good and for the good of the school and the community. Getting the community to appreciate the work of the teachers and the schools to such an extent as to give their sympathy, help, time and money to increase the efficiency of our schools.

In Mr. Turnipseed's opening remarks he said that whether each and every teacher got much, little, or no good from the Institute depended entirely on herself or himself. This is certainly true in this discussion because much good was given whether it was received or not.

If this is Prof. Caplinger's first professional institute work, as I understand it is, and is forecast of what we may expect from him in the future, his success in this new line is undoubtedly assured.

Mr. Turnipseed then read a communication from P. P. Claxton, U. S. Commissioner of Education as to President Wilson's expressed wishes with regard to the schools of the nation.

This started Mr. Turnipseed in a very interesting talk which certainly had the right ring, in which he touched on salary, tenure, etc.

The following committees were appointed: Homes—Bessie Bauer, Ella Wallace, Clarence Martin.

Decorations—Emma Hart, Lorene Dryden, Mrs. J. H. Winder.

Resolution—G. E. Everett, Miss Minnie Dobyns, Fannie Tuggle.

After a short recess during which time about forty-two teachers registered. Prof. Bradner having overcome such obstacles as a walk of seven miles to get a much delayed train, arrived and was presented to the institute, and after a few very happy general remarks, in which he recounted many of his early experiences as a teacher—in order to show them

that on account of this experience he was in position to help them in the solution of problems. While this talk was very helpful to all present it was certainly an especial privilege for the inexperienced teacher to have the opportunity of hearing it.

Institute adjourned for noon recess. Institute convened at 1 p. m. Song—The Star Spangled Banner.

Instead of discussing the next subject on the program, "The Course of Study," Mr. Bradner discussed "The Rural School." This is probably the most comprehensive, and important subject to be considered by the institute during the entire week. Without entering into details will say that this subject was handled in a way that must have been very profitable to every teacher present except those who are too smart or too dull to understand a thing that is very plainly put. But I hope there are none of that kind in attendance as they do not attend institutes.

Recess. At the close of the recess it was found that fifty-three teachers had registered.

During the recess Prof. W. T. Berry who was distributing pencils for one of our business houses was completely overwhelmed and had to beg his way out.

After recess the institute was favored by a solo "Lorraine" by Mrs. Edith B. Hamilton, accompanied by Miss Ria Ross. An encore was given. Both of these were much appreciated and enjoyed as was evidenced by the very hearty applause given.

After this music, "The Best Ways and Means of Promoting the Interest of Education" was handled by Prof. Caplinger. Among the things which he said all of which were strictly all right, were all teachers should take teachers journals, be members of the N. E. A. and the K. E. A. Work harder than they are expected to, to stick to the teaching profession as a matter of loyalty, stay in the same place as long as possible. All other things being equal.

The people all over the state ought to consider it a duty and privilege to board the teacher. Superintendent Caplinger a number of times emphasized the idea that the teachers should be thoroughly organized in recognition of the truth that in union there is strength, for their own good, and for general good of the education of the nation.

Prof. Bradner then discussed "The Course of Study". He believes the present course of study is a good one, that it is the duty of each and every teacher to inform himself, or herself in regard to it and to carry it out, in practice, as nearly as is possible.

Today's program follows:

9:00—Devotional Exercise.

9:10—Announcements, Supt. George H. Turnipseed.

9:20—Course of Study, Supt. J. W. Bradner.

10:05—Smith Hughes Vocational Education in Kentucky, Prof. Everett

10:30—Recess.

10:40—History—Miss Lida Gardner.

11:10—Round Table Discussion.

11:20—School and Home Sanitation.

Dr. J. S. Lock.

General Discussion.

Noon Recess.

1:30—Arithmetic—Supt. J. W. Bradner.

1:40—School and Home Gardening.

Prof. J. H. Adams.

2:40—Recess.

2:50—Recitation.

3:00—Parent-Teacher Association—Miss Lida Gardner.

PATRIOTISM AT THE PASTIME TODAY

Bessie Barriscale comes to the screen of the Pastime Theater today in her newest Paralta Play, "Patriotism," which was especially written for her by R. B. Kidd and Jane Holly.

Howell Richardson, who has been employed on the Great Lakes steamer E. Y. Townsend during the summer months, arrived home Sunday for a few days vacation before re-entering Ohio Wesleyan University.

The public, especially the members of Parent-Teacher Association are invited to hear Miss Lida Gardner at the Third Street M. E. Church today, Tuesday, at 3 o'clock p. m.

J. Edward Parker was tried before a jury in Police Court yesterday afternoon on a charge of speeding and was found not guilty.

Mrs. Mollie Jolly of East Second street has returned home from Ewing where she was visiting her sister, Mrs. Sparks.

Mr. John Wadsworth has returned to his home at Bristol, Conn., after a pleasant visit with his father, Mr. J. G. Wadsworth.

Mr. Scott Stevenson of Murphysville left for Covington Monday where he will serve as petit juror in U. S. District court.

Miss Bessie Bauer has returned home after a very pleasant visit with friends in Bellevue.

RIPLEY SOLDIER ESCAPES U-BOAT ON WAY OVER

Son of Ripley People Writes Interestingly of Experience in Going Over.

According to Lieut. W. W. Ward, in a letter to his parents, Mr. and Mrs. I. F. Ward, of Ripley, Ohio, military transport traveling is a mighty delightful experience, especially if one is not subject to seasickness. "I was so sick at first that I really did not care whether we continued on or sank," Lieut. Ward writes. "But I recovered and the last ten days were really delightful. We had wonderful food served by waiters with many brass buttons and all the graces that the English are famous for. The food was wonderfully cooked and there were silver spoons and knives, so you can see that the ship was as well equipped as the finest hotels in the country. We did very little work. Only had one formation a day and that was for physical exercise and lasted 45 minutes. Had two band concerts a day and a saxophone quartette during dinner. Our principal amusement was preparing for a possible attack of submarines, or tin fish, as they are called.

"I understand that some of the men on board saw whales, but I was not so fortunate. We had every kind of weather that is to be had on the ocean.

"One thing particularly noticeable in England is that there are so few young men on the streets and absolutely no good-looking girls. They all seem to have large feet and wear the funniest big shoes, many of them with copper toes. They also wear very plain clothes and nearly all are minus one or more teeth."

Lieut. Ward formerly was editor of "Farm Products."

BARROW UNIT HOUSED IN MANSION

Yesterday's Courier-Journal contained a picture of the mansion in which the Barrow Hospital Unit is housed in England. Ashby Porter and John Marsh, both of this city, are members of this hospital unit which is made up entirely of Kentucky men and women.

TWO FROM NEIGHBORHOOD IN CASUALTY LIST

Two young men from this section of the county appeared on yesterday's army casualty list. Sterling G. McKay, of Cowan, Ky., was reported as being wounded, degree undetermined and Robert Donovan, of Brooksville, was reported as being wounded severely.

Word comes from Cabin Creek, Lewis county, that the gas which was struck on the Sartin farm last week while digging for water, continues to flow out the hole in good sized quantities and prospecting will likely begin in that neighborhood in a short time.

The ladies of the M. E. Church, South, will meet Wednesday afternoon at the church to sew for the Red Cross.

COLORED NEWS

Special called meeting of Acacia Lodge No. 24 F. and A. M. Wednesday night, August 28, at 8 p. m. Four candidates for the M. M. degree. All members are requested to be present.

C. N. BRAXTON, W. M.

Harry Combs, Secretary.

INTEREST TAKEN IN OIL INSPECTORSHIP TO BE DECIDED SOON

County Judge Considers That Everett Term Has Expired—Newly Appointed Inspector Prevented From Qualifying By Restraining Order.

Considerable interest is taken in the legal fight opening Saturday afternoon and becoming known generally yesterday for the first time over the County Oil Inspector's appointment.

Mr. S. C. Clift, who was appointed Oil Inspector on Saturday by County Judge H. P. Purnell, was ready to qualify yesterday with his surety but was prevented from doing so by the restraining order granted by Circuit Judge Newell pending the trial of the injunction sought by Mr. T. J. Rice, present inspector.

Judge Purnell contends that the term of office for which J. C. Everett was appointed and for which Mr. Rice was appointed to fill out the unexpired term, has now expired and that he has a right to appoint Mr. Clift to the office while Mr. Rice and his supporters contend that the term to which he was appointed does not expire until June 18, 1921, the term having begun on June 18, 1917.

It will be remembered Mr. Rice was appointed by his brother, County Judge W. H. Rice on December 22, 1917, just a few days before he retired from office a County Judge. There had been much speculation as to who would be the new inspector under the new administration and the announcement of Mr. Rice's appointment was quite a surprise.

The hearings on the injunction sought by Mr. Rice against Judge Purnell and Mr. Clift will be held on next Monday before Judge Newell and the court's ruling will determine whether or not the new appointment will stand. There will be considerable interest in the final outcome of the little legal scrap which has been expected for the past several weeks.

MOST COUNTY SCHOOLS TO OPEN AT ONCE

It was learned yesterday from the teachers in the city attending the Mason County Teachers' Institute that the most of the county schools will open this year at the usual time—the first week in September—instead of the first week in October as had been suggested to the trustees. Several schools however will conduct a month of night school to allow the farmer boys to work on the farms during the day for the month of September.

Miss Hattie Stages, of East Second street, is visiting relatives in Fleming county.

RESIDENTS REPORT AUTO SPEEDERS

For some time the automobile speeding through the East end of the city has been dangerous. The speeders were wise enough to evade the police and they were therefore unable to get at the bottom of it but the people along East Second street have begun to keep a close watch and are reporting speeders by the numbers of their machines. This is as it should be and a continuation of this reporting will soon stop all speed mania.

TAYLOR

The Celebrated Psychologist

Palmist and Psychic

Was born with a strange and remarkable power—power not meant to gratify the idle curious, but to direct, advise and help men and women who are in trouble and suspense concerning the everyday affairs of life. The great questions of life are quickly solved, failure turned to success, sorrow to joy; truths laid bare by this wonderful man. Tells you of your secret troubles, the cause and remedy. Advice on all affairs of life.

Catarhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. F. J. CHENEY & Co., Toledo, O.
